

ANAMUL HAQUE

FULL STACK DEVELOPER

+8801972752132 | m.anamul.dev@gmail.com

Dhaka-1215, Bangladesh

github.com/Md-Anamul-Haque | linkedin.com/in/anamulhaque32

PROFESSIONAL SUMMARY

Results-oriented Full Stack Developer with **4+ years** of experience building scalable, production-ready applications. Specializes in TypeScript, Node.js, and PostgreSQL with deep expertise in real-time systems (WebRTC mediasoup SFU, Socket.IO). Startup co-founder with a track record of shipping end-to-end products — from architecture to cloud deployment.

EXPERIENCE

Software Developer

ITBeeSolution

Jan 2024 – Feb 2026 • Full-time, Remote

- Led end-to-end development of **Ultrasnap** — enterprise SaaS combining ClickUp-style task boards, Apploye-style time tracking, and Discord-style video conferencing.
- Built real-time WebRTC video/audio conferencing with **mediasoup SFU** for one-to-one and group calls.
- Implemented automated 2-min screenshot activity tracking, team chat, and group scheduling.
- Full-stack: React/Redux/Tailwind (web), Electron & Tauri (desktop), TypeScript/Node.js/Express/PostgreSQL (backend).
- Wrote 90%+ of the codebase solo; managed AWS EC2 deployments and CI/CD pipelines.

Co-founder & Lead Developer

Udvabok (formerly Nocrashsoft)

2021 – Present • Startup

- Co-founded startup delivering SaaS management systems to Bangladeshi institutions.
- School Management System** — attendance, results, fee collection, reporting.
- Madrassa Management System** — Islamic institution-specific workflows and records.
- POS System** — inventory, billing, and sales analytics for SMEs.
- Hospital Management System — currently in active development.

PROJECTS

LocalBangla — E-Commerce Platform [LIVE]

localbangla.com | Next.js · PostgreSQL · Tailwind CSS

Bangladeshi e-commerce marketplace (electronics & accessories) with product listings, cart, and cash-on-delivery. Built and launched independently.

Ultrasnap — Team Productivity SaaS [LIVE]

itbeechat.com | React · Node.js · mediasoup · PostgreSQL · Electron

All-in-one remote work platform: task boards, video conferencing, time tracking, team chat. (ClickUp + Apploye + Discord + MS Teams)

Demo — anamul.itbeellc@gmail.com / [Anamul\\$1122](#)

POS System — Point of Sale [LIVE]

pos.udvabok.com | React · Node.js · PostgreSQL

Full-stack POS with inventory management, billing, and sales reporting.

Demo — m.anamul.dev@gmail.com / [12345678](#)

rg-express — npm Library [OSS]

npmjs.com (rg-express) | Node.js · TypeScript

Published npm routing library to streamline Express.js backend development.

SKILLS

Backend

TypeScript, Node.js, Express.js, Socket.IO, WebRTC (mediasoup SFU)

Frontend

React, Next.js, React Native (Expo), Redux, Tailwind CSS, Shadcn/UI

Database

PostgreSQL + plpgsql, MongoDB, Redis

Desktop

Electron, Tauri

DevOps

AWS EC2, Ubuntu, AlmaLinux, Rocky Linux, Docker, pm2

Tools

Git, GitHub, REST APIs, npm publishing

EDUCATION

B.A. (Honors) — In Progress

Wali Newaz Khan College
Kishoreganj

KEY HIGHLIGHTS

4+ yrs Production app development

90%+ Ultrasnap codebase — solo

5+ Live products deployed

1 npm pkg rg-express published

2021 Startup co-founder

WebRTC mediasoup SFU expert
